

Name _____

MULTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the question.

- 1) Which Photoshop panel would you use to select a predefined color rather than mixing one on the fly? 1) _____
A) the Swatches panel B) the Color panel
C) the Clone Source panel D) the Brush panel
- 2) Which of these personal qualities does NOT reflect professionalism? 2) _____
A) dependability B) positive attitude
C) honesty D) irregular attendance
- 3) The inventors of the original processes for creating photographs lived and worked in: 3) _____
A) the United States B) France
C) England D) China
- 4) One of the selection tools hidden behind the Lasso tool on the Tools panel the: 4) _____
A) Elliptical Lasso tool B) Elastic Lasso tool
C) Polygonal Lasso tool D) Rectangular Lasso tool
- 5) Which of these tools would be a good choice for repairing a localized flaw in a photo? 5) _____
A) Spot Healing Brush B) Clone Stamp tool
C) Patch tool D) all of the above
- 6) Which command would you use to combine all of the layers in a Photoshop file into a single layer? 6) _____
A) Flatten Image B) Collapse All Groups
C) Group Layers D) Delete Layer
- 7) The late twentieth-century magazine that showcased the work of numerous postmodern designers was: 7) _____
A) National Geographic B) Emigre
C) Saturday Evening Post D) Vanity Fair
- 8) A menu that appears only when a particular section of the work area is right-clicked, and whose contents change depending on what is clicked and which tool is active is a: 8) _____
A) drop-down menu B) pop-up menu
C) context menu D) menu bar
- 9) Which Photoshop tool would you use to enlarge or shrink your view of your image? 9) _____
A) the Resize tool B) the Enlarge tool
C) the Zoom tool D) the Drag tool
- 10) Which command should you first choose if you want to resize a layer by dragging? 10) _____
A) Skew B) Enlarge
C) Rotate D) Free Transform

- 11) What is the default layer present in every newly created Photoshop file? 11) _____
 A) Adjustment layer B) Background layer
 C) Foreground layer D) Opacity layer
- 12) Which Photoshop tool is used to select part of your image by automatically seeking out and following defined edges? 12) _____
 A) the Quick Selection tool B) the Polygonal Lasso tool
 C) the Magic Wand tool D) the Elliptical Marquee tool
- 13) When you add a new layer to a Photoshop file, which layer is it placed above? 13) _____
 A) bottom layer B) top layer
 C) Foreground layer D) selected layer
- 14) Which Photoshop tool is used to select part of your image based on color? 14) _____
 A) the Magic Wand tool B) the Elliptical Marquee tool
 C) the Polygonal Lasso tool D) the Quick Selection tool
- 15) Which of the paste commands do you use to paste cut or copied pixels inside a selection? 15) _____
 A) Merge Into B) Paste C) Paste Merged D) Paste Into
- 16) Which Photoshop feature allows you to easily switch between multiple views of a multilayered image file? 16) _____
 A) adjustment layers B) blending modes
 C) layer styles D) layer comps
- 17) What kind of layer applies color or tonal changes to the layer beneath it? 17) _____
 A) Opacity layer B) Fill layer
 C) Background layer D) Adjustment layer
- 18) The Red Eye tool shares a spot on the Tools panel with which of these other tools? 18) _____
 A) the Spot Healing Brush tool B) the Brush tool
 C) the Eraser tool D) the Clone Stamp tool
- 19) To merge two photos of the same subject that were taken with the camera focused on different parts of the scene, you would use the two commands: 19) _____
 A) Merge Layers and Flatten Visible
 B) Auto-Align Layers and Rasterize Layer
 C) Group Layers and Auto-Blend Layers
 D) Auto-Align Layers and Auto-Blend Layers
- 20) The transparent portion of a Photoshop image or layer is represented by: 20) _____
 A) a checkerboard pattern B) light pink
 C) marching ants D) solid white
- 21) Which color mode should your image be in if you want to adjust only the black pixels? 21) _____
 A) LAB color B) RGB C) Grayscale D) CMYK

- 22) The field of "graphic design" was first named and defined during which era? 22) _____
 A) the late 1970s B) 16,000 years ago
 C) the first quarter of the 20th century D) Benjamin Franklin's time (18th century)
- 23) Which of these properties does NOT apply to alpha channels? 23) _____
 A) Each channel can have its own mask and opacity settings.
 B) An alpha channel's mask can be edited using painting tools.
 C) All channels are 8-bit grayscale images.
 D) Alpha channels cannot be converted to spot channels.
- 24) You can create a true fraction using OpenType in Photoshop by typing the fraction's characters, selecting the characters, and then: 24) _____
 A) choosing OpenType > Fractions from the Character panel menu
 B) pressing the F key
 C) choosing the fraction from a dialog that pops up
 D) clicking the fraction button
- 25) The typeface that contains short perpendicular strokes that finish off the main stroke is known as: 25) _____
 A) hot type B) san serif typeface
 C) character typeface D) serif typeface
- 26) In Photoshop, what are the options in the Path Operations menu used for? 26) _____
 A) They give you more options for drawing.
 B) They determine how multiple shapes interact with each other in a path.
 C) They allow you to import shapes from Illustrator.
 D) They determine how long your path will be.
- 27) What are the benefits of a diverse workforce? 27) _____
 A) A broader spectrum of viewpoints and beliefs can lead to a competitive advantage.
 B) A wider range of employee talents can benefit a company.
 C) A company can better understand and identify with diverse markets.
 D) all of the above
- 28) What is true of type styles in Photoshop? 28) _____
 A) If selected text has been changed from the current paragraph style, those changes persist even when you apply a new style.
 B) All text you create in Photoshop has the Basic Paragraph style applied by default.
 C) You can use the same character and paragraph styles across multiple files.
 D) all of the above
- 29) In the Basic panel of Photoshop's Camera Raw dialog box, which slider is best used when you are trying to bring life to a background without oversaturating skin tones in the image? 29) _____
 A) Clarity slider B) Background slider
 C) Blacks slider D) Vibrance slider
- 30) In Photoshop's Camera Raw dialog box, you can: 30) _____
 A) save settings as a preset B) preview images
 C) adjust the tone of an image D) all of the above

- 31) The most important elements in graphic design are: 31) _____
 A) color, depth, line, shape, texture, space, pattern
 B) scale, color, shape, flow, perspective, line, bold
 C) shape, length, width, contour, spatial, depth, texture
 D) curves, jagged lines, free flowing, bold, texture, color
- 32) The ideal histogram has: 32) _____
 A) its black point at the beginning of the data, its white point at the end of the data, and uniform peaks and valleys in between
 B) its white point at the beginning of the data, its black point at the end of the data, and uniform peaks and valleys in between
 C) no viewable range of dark and light
 D) a flat and uniform white point, represented by the left triangle
- 33) The area between elements on the page that is also inherent in letterforms themselves is: 33) _____
 A) kerning B) depth C) white space D) typeface
- 34) To create multiple versions of a single asset in Generator, you need to: 34) _____
 A) create as many new layers as you need
 B) separate image filenames that have been added to the layer with a comma
 C) copy and paste the filename into the layer
 D) save the layers in multiple sizes and formats
- 35) What is a safe resolution for most printed output? 35) _____
 A) 600 dpi B) 72 dpi C) 300 dpi D) 150 dpi
- 36) What is true of the CMYK model? 36) _____
 A) The letters in the model stand for cyan, magenta, yellow, and black.
 B) The model is based on the light-absorbing quality of ink printed on paper.
 C) Combining the inks to reproduce color is called four-color process printing.
 D) all of the above
- 37) To ensure everything is appropriate for printing your file, check that your image resolution is correct and then: 37) _____
 A) Flatten your file since you won't need to edit it anymore.
 B) Do a zoom test and take a close look at the image.
 C) Print your file.
 D) Change your file format to RGB.
- 38) The extremely influential German movement that strove for the union of arts, crafts, and industry, but was eventually persecuted by the Nazis was: 38) _____
 A) Cubism B) Bauhaus
 C) De Stijl D) Constructivism
- 39) An artistic movement pioneered by Pablo Picasso that showed forms from multiple viewpoints at the same time was: 39) _____
 A) Futurism B) Dada C) Cubism D) Art Nouveau

- 40) When creating a panorama using the Photomerge command in Photoshop, which option would you select in order to fix images with dark edges? 40) _____
 A) Blend Images Together
 B) Content Aware Fill Transparent Areas
 C) Vignette Removal
 D) Geometric Distortion Correction
- 41) Which tool draws paths in Photoshop as if you were drawing with a pencil on paper? 41) _____
 A) Point tool
 B) Pen tool
 C) Anchor Point tool
 D) Freeform Pen tool
- 42) When warping text in Photoshop, what option in the Warp Text dialog box allows you to specify how much warp is applied? 42) _____
 A) Style
 B) Horizontal distortion
 C) Vertical distortion
 D) Bend slider
- 43) How do you select all the type on one layer in Photoshop? 43) _____
 A) Double-click the thumbnail icon on any type layer in the Layers panel.
 B) Press the spacebar when you have the Type tool selected.
 C) Choose Edit > Select text.
 D) all of the above
- 44) Which format can only be saved from the Camera Raw dialog box and contains both raw image data from the camera and metadata that defines what the image data means? 44) _____
 A) PSD
 B) JPEG
 C) DNG
 D) all of the above
- 45) When attempting to make a skin tone appear less red in Photoshop and using a Curve adjustment, why should you be careful not to pull down the curve too far in the Curves graph? 45) _____
 A) The image will have a green cast.
 B) The image will disappear.
 C) The image will turn more red.
 D) The image will distort.
- 46) How many plates does Photoshop print for a CMYK image? 46) _____
 A) 14
 B) 4
 C) 1
 D) 10
- 47) What feature in Photoshop allows you to prepare image files from the contents of a layer or layer group simply by renaming the layer or layer group? 47) _____
 A) Adjustment layers
 B) Group layers
 C) Adobe Camera Raw
 D) Adobe Generator
- 48) Where is the Custom Shape tool located? 48) _____
 A) under Layer > Smart Objects
 B) in the custom library menu
 C) behind the Rectangle tool in the Tools panel
 D) behind the Brush tool in the Tools panel
- 49) Which settings in Photoshop change the tile, rotation, and pressure of a brush? 49) _____
 A) Shape Dynamics
 B) Brush Dynamics
 C) Pen tilt
 D) Brush Pose

- 50) How do you group layers together in Photoshop? 50) _____
 A) Select all the images you want included in the group and choose Layer > New.
 B) Click the layers so they are selected and press Enter.
 C) Create a new layer called Group.
 D) Select the layers in the Layers panel and choose Layer > Group Layers.
- 51) Effective communication should: 51) _____
 A) be positive
 B) include listening
 C) get to the point
 D) all of the above
- 52) What happens when you Ctrl-click (or Command-click) the thumbnail of a layer in Photoshop? 52) _____
 A) The layer's blending mode changes to Color.
 B) The layer becomes inactive.
 C) The objects on that layer are zoomed.
 D) The contents of the layer are selected, and you have an active selection.
- 53) What does the "24" in the filename Test.png24 represent when Generator creates assets in Photoshop? 53) _____
 A) 24 characters per inch
 B) 24 × 100 image size
 C) 24% quality
 D) 24-bit image
- 54) When you load files from Bridge into Photoshop using the Load Files into Photoshop Layers command, the files are imported as individual layers that are organized: 54) _____
 A) by file type
 B) alphabetically
 C) by file size
 D) The layers aren't organized.
- 55) What is a benefit to using the Mixer Brush in Photoshop? 55) _____
 A) You can combine text, color, and images.
 B) You can combine different bristle settings and brush tips with different paint-mixing settings.
 C) You can create a video and combine it with your Photoshop image.
 D) all of the above
- 56) The Mixer Brush tool will only mix colors on Photoshop's active layer unless what is selected in the options bar? 56) _____
 A) Sample All Layers
 B) Clean the Brush After Each Stroke
 C) Eyedropper tool
 D) Load Brush
- 57) How do you scale up an image in Photoshop? 57) _____
 A) You cannot scale an image because Photoshop is unable to resample images.
 B) Zoom in on the image and choose File > Size.
 C) Choose Image > Image size and increase the width and height.
 D) Right-click on the image and choose an appropriate dimension from the context menu.
- 58) The principles of graphic design include: 58) _____
 A) direction, dominance
 B) contrast, balance
 C) proportion, rhythm, unity
 D) all of the above

SHORT ANSWER. Write the word or phrase that best completes each statement or answers the question.

- 59) To discard a border area around the outside edge of an image based on transparency or color, use the _____ command. 59) _____
- 60) The number of pixels per unit of length in an image is called the image _____. 60) _____
- 61) The area at the bottom of the Photoshop window that displays the current magnification level is the _____ bar. 61) _____
- 62) The _____ tool is used for fixing flaws quickly by patching them with pixels sampled from the surrounding area without requiring you to select a source area. 62) _____
- 63) _____ typefaces are designed specifically for use at large sizes in advertising. 63) _____
- 64) To sample a color from an image to use as the foreground or background color, use the _____ tool. 64) _____
- 65) The _____ command lets you return to a previous state of the document even after you've saved your most recent changes. 65) _____
- 66) To change how the pixels on one layer interact with the pixels on the layers beneath it, change the _____ mode. 66) _____
- 67) If you want to make changes only to a specific area of a Photoshop image, you first need to make a(n) _____. 67) _____
- 68) To manually draw a selection along a defined edge (with the option to place points by hand), use the _____ tool. 68) _____
- 69) To change the visibility of a layer, click the _____ icon next to the layer in the Layers panel. 69) _____
- 70) Add to a selection by holding the _____ key while dragging or clicking. 70) _____
- 71) To change the sensitivity of the Magic Wand tool, adjust the _____ option. 71) _____
- 72) When a mask is applied to a layer or an image in Photoshop, the portion of the mask that hides the pixels below it is colored _____. 72) _____
- 73) When using the Perspective Warp feature to correct an image, the first step is to define the two-dimensional planes by drawing _____ aligned with the surfaces of objects in the image. 73) _____
- 74) Using material created by someone else without giving them due credit is _____. 74) _____
- 75) When editing in _____ mode, you refine a mask by painting directly on it. 75) _____

- 76) To create a mask for a complex object (like hair) click the _____ button in the Properties panel to open the Refine Mask dialog. 76) _____
- 77) The kind of reading that involves stopping and thinking about what is being said, rephrasing it from your own point of view, and taking notes to remember main points is called _____. 77) _____
- 78) The CC in the name of many Adobe products stands for _____. 78) _____
- 79) An object whose shape masks other artwork so that only the areas within the mask are visible is known as a(n) _____. 79) _____
- 80) When you change the _____ setting in the Character panel in Photoshop, you are changing the vertical space between lines of text. 80) _____
- 81) _____ occurs when juxtaposed ideas and forms create visual or intellectual tension due to an enhanced perception of differences between the elements. 81) _____
- 82) The repetition of an element in a(n) _____ has a total greater effect than the individual parts and can bring visual energy and motion to a composition. 82) _____
- 83) A filter that applies a nondestructive effect only to a Smart Object in Photoshop is known as a(n) _____ filter. 83) _____
- 84) A(n) _____, also called a proof setup, defines how the file will be printed and adjusts the onscreen appearance accordingly. 84) _____
- 85) A set of one or more commands that you record and play back to apply to a file or batch of files in Photoshop is known as a(n) _____. 85) _____
- 86) _____ in Photoshop make it easier to organize and assemble layers in complex images, which can be later used in Adobe Generator. 86) _____
- 87) Creating a composition using the properties of shape, form, color, and line rather than portraying recognizable objects or scenes is called _____. 87) _____
- 88) An American advertising design movement that blended text and image in often humorous ways was the _____. 88) _____
- 89) You can add a nondestructive effect (like a stroke or a drop shadow) to an image by using a(n) _____. 89) _____
- 90) Use the controls in the _____ panel to set parameters for text such as the font, font style, size, etc. 90) _____
- 91) If a camera lens causes straight lines to bow out toward the edges of an image, it is showing _____ distortion. 91) _____

- 92) A(n) _____ channel stores a selection as a grayscale image. 92) _____
- 93) To create a(n) _____ line segment in Photoshop, you click the mouse button with the Pen tool selected to create the starting point, and click the mouse button again onscreen where you want the end point to be. 93) _____
- 94) If you are using the Spot Healing Brush tool in Photoshop and want to replace a detail in your image with nearby details, select _____ in the options bar. 94) _____
- 95) The range of colors an image contains is called its _____, and you can view these color values in Photoshop before you convert an image from RGB to CMYK. 95) _____
- 96) The work carried out by Sigmund Freud on the analysis of dreams influenced the artistic movement called _____. 96) _____
- 97) Using the _____ panel allows you to reverse multiple actions and erase your steps in Photoshop. 97) _____
- 98) A(n) _____ is a sequence of drawings used to plan the scenes for a video or animation. 98) _____
- 99) A menu whose listed commands change depending on what is currently selected or active, and which appears when a part of the work area is right-clicked is a(n) _____ menu. 99) _____
- 100) White balance comprises two components: temperature and _____. 100) _____
- 101) How much paint the brush picks up from the canvas in Photoshop is determined in the _____ field of the Mixer Brush options bar. 101) _____
- 102) You can create a brush preset in Photoshop by choosing settings such as size, shape, bristles, length, stiffness, angle, and spacing in the _____ panel. 102) _____
- 103) Sharpening controls for correcting camera raw images in Photoshop can be found in the _____ panel. 103) _____

TRUE/FALSE. Write 'T' if the statement is true and 'F' if the statement is false.

- 104) True or False: The introduction of digital technology has played a major role in the development of design since the late twentieth century. 104) _____
- 105) True or False: In the Adjustments panel, dragging the Brightness slider to the right increases the overall brightness of an image. 105) _____
- 106) True or False: 20th-century American design was largely cut off from developments in Europe as a result of the two World Wars. 106) _____

- 107) True or False: Using the Curves adjustment panel to set the white point of an image is all you need to do to remove a color cast from an image. 107) _____
- 108) True or False: It's possible to turn off the application frame in both Mac and Windows versions of Photoshop. 108) _____
- 109) True or False: The Arts and Crafts movement attempted to reintroduce handcrafted art forms of the past into modern mass-produced items. 109) _____
- 110) True or False: When you use the Gradient tool, the gradient is applied to the entire image, without regard for selected areas. 110) _____
- 111) True or False: With a selection tool active, holding the Shift key temporarily switches to the Move tool, allowing you to move selected pixels rather than copying them. 111) _____
- 112) True or False: If a layer's opacity is 100%, it is not transparent. 112) _____
- 113) True or False: When making elliptical or rectangular selections, hold down the Shift key to draw the selection of the center of the area you want to select. 113) _____
- 114) True or False: If you edit a text layer that's had a layer style applied to it, the layer style updates immediately to accommodate the change. 114) _____
- 115) True or False: Copyright laws protect the creators and owners of intellectual property from misuse by others. 115) _____
- 116) True or False: The only adjustment layer you can use to brighten an image is the Brightness/Contrast adjustment. 116) _____
- 117) True or False: The Content-Aware Move tool works best in images with a consistent background that Photoshop can replicate as a pattern. 117) _____
- 118) True or False: When manipulating an image using the Puppet Warp feature, you simply drag on a part of the image using your mouse without preparing the image in any way. 118) _____
- 119) True or False: When you move one linked direction line on a smooth anchor point in Photoshop, the curved segments on both sides of the path adjust simultaneously. 119) _____
- 120) True or False: If you save your Photoshop file as a JPEG or TIFF image, you'll lose the vector type and the text will no longer look crisp when zoomed in or resized. 120) _____
- 121) True or False: After typing text using the Type tool in Photoshop, you can commit your edits simply by pressing Enter or Return. 121) _____
- 122) True or False: When Show Backdrop is selected in Photoshop's Liquify dialog options, only the top layer is viewable. 122) _____

- 123) True or False: The dominance of a shape or of text in a composition can usurp the traditional hierarchy of details that appear from top to bottom and left to right. 123) _____
- 124) True or False: The width of the brush changes as you paint if you choose Erodible Point from the Shape menu, and a lower Softness value results in faster erosion. 124) _____
- 125) True or False: Actions can only be performed on one file at a time in Photoshop. 125) _____
- 126) True or False: You can print 3D objects directly from Photoshop. 126) _____
- 127) True or False: The overall color scheme of the Photoshop user interface (with light text on a dark background) is fixed and unchangeable. 127) _____
- 128) True or False: Nondestructive editing means that if you make changes to an image, the edits don't affect the actual image pixels, which are preserved. 128) _____
- 129) True or False: When creating type in Photoshop that flows along a path, the direction type flows depends on the order in which anchor point were added to the path. 129) _____
- 130) True or False: When you open an image as a Smart Object in Photoshop, you can return to Camera Raw to make further edits to the image. 130) _____
- 131) True or False: Form is not very important in storyboarding, and you don't need to worry about design considerations at this point in the creative process. 131) _____
- 132) True or False: You cannot combine both bitmap and vector data in an individual Photoshop file. 132) _____
- 133) True or False: You can click a state for a task you performed in Photoshop and return to that point in the process, but as soon as you perform a new task, Photoshop deletes all the dimmed states. 133) _____
- 134) True or False: It's a good idea to work in RGB mode as long as possible before converting to CMYK in Photoshop. 134) _____
- 135) True or False: It's best to save your master image as a JPEG, not PSD, TIFF, or DNG, since those formats degrade when the file is re-edited and saved. 135) _____
- 136) True or False: Both Photoshop and Camera Raw have HDR and panorama features. 136) _____
- 137) True or False: Color does not contribute to contrast in designs. 137) _____
- 138) True or False: When using a dry brush, the paint does not mix with the background colors. 138) _____
- 139) True or False: The camera does the image processing for you when you shoot in camera raw format. 139) _____

140) True or False: Scaling elements differently can generate a sense of depth within a design composition.

140) _____
